View the licenses installed on the controller. 1

View the licenses installed on the controller

You can use the ONTAP command line to view all the licenses installed on your controller to determine whether you have the SnapManagerSuite license already installed.

You must be a cluster administrator on the FAS or AFF system.

The SnapCenter Standard controller-based license displays as SnapManagerSuite license on the controller.

Steps

1. Log in to the NetApp controller using the ONTAP command line.
2. Enter the license show command, and then view the output to determine whether the SnapManagerSuite license is installed.

```
cluster1::> license show
(system license show)

Serial Number: 1-80-0000xx
Owner: cluster1
Package          Type      Description          Expiration
-----
Base             site      Cluster Base License -

Serial Number: 1-81-000000000000000000000000xx
Owner: cluster1-01
Package          Type      Description          Expiration
-----
NFS              license   NFS License         -
CIFS             license   CIFS License        -
iSCSI            license   iSCSI License       -
FCP              license   FCP License         -
SnapRestore      license   SnapRestore License -
SnapMirror       license   SnapMirror License  -
FlexClone        license   FlexClone License   -
SnapVault        license   SnapVault License   -
SnapManagerSuite license   SnapManagerSuite License -
```

In the example, the SnapManagerSuite license is installed, therefore, no additional SnapCenter licensing action is required.

If no SnapManagerSuite license is displayed, you must obtain your controller serial number, and then retrieve your license from the NetApp Support Site.
